Autodesk signed a license agreement with Walt Disney Pictures for the XGen technology, a comprehensive system for generating arbitrary primitives on a surface used in such films as “Tangled.”

**3\_XGen\_Tangled\_hair.jpg**

At SIGGRAPH, Autodesk announced a license agreement for the Walt Disney Animation Studios-developed XGen technology that has been used on seven features, three shorts and one TV show, including “Tangled.”

**4\_XGen\_Tangled\_kneeling\_hairwrap.jpg**

Autodesk licensed XGen technology from Walt Disney Pictures to provide artists with intuitive, creative tools for 3D animation. Artists at Walt Disney Animation Studios used XGen to create Rapunzel's incredible hair in “Tangled.”
